

Telco Grade SDN Solutions
MAYA SD-WAN , SD-Fabric

Our Journey with SDN & Open Networking

5G MEC Platform

Cloud Edge / IoT / V2X

Enriched AI/ML Functions

Telco Grade SD-Fabric

We are a big family with
1000 + MAYA SD-WAN
Deployments
& 5000+ Contracts

Enhanced SDN features
CNF, AI/ML, App. Aware etc.

MAYA SD-WAN

MAYA SD-WAN – Benefits

Carrier Agnostic WAN Overlay

Reduce Costs and Lower Operational Complexity

Ensure Remote Site Uptime

Network Visibility

Advanced Traffic Management and Security

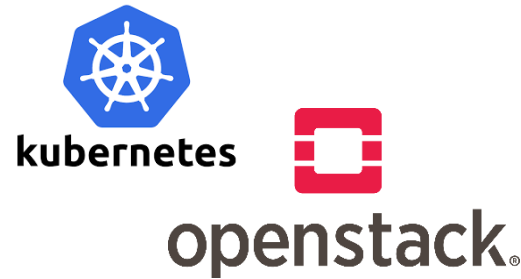

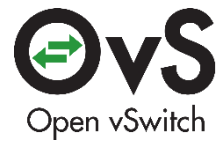

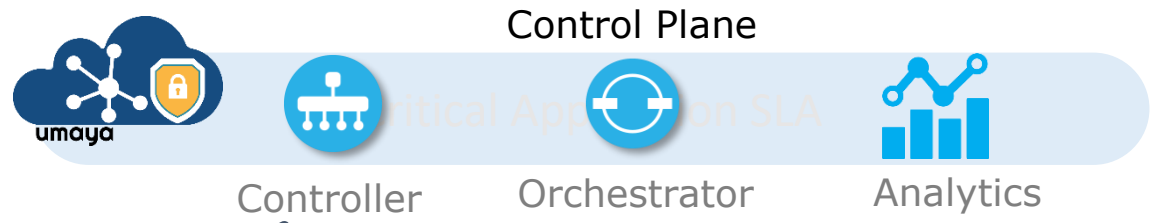

Cloud Native

Platform Independent (X86 , ARM)

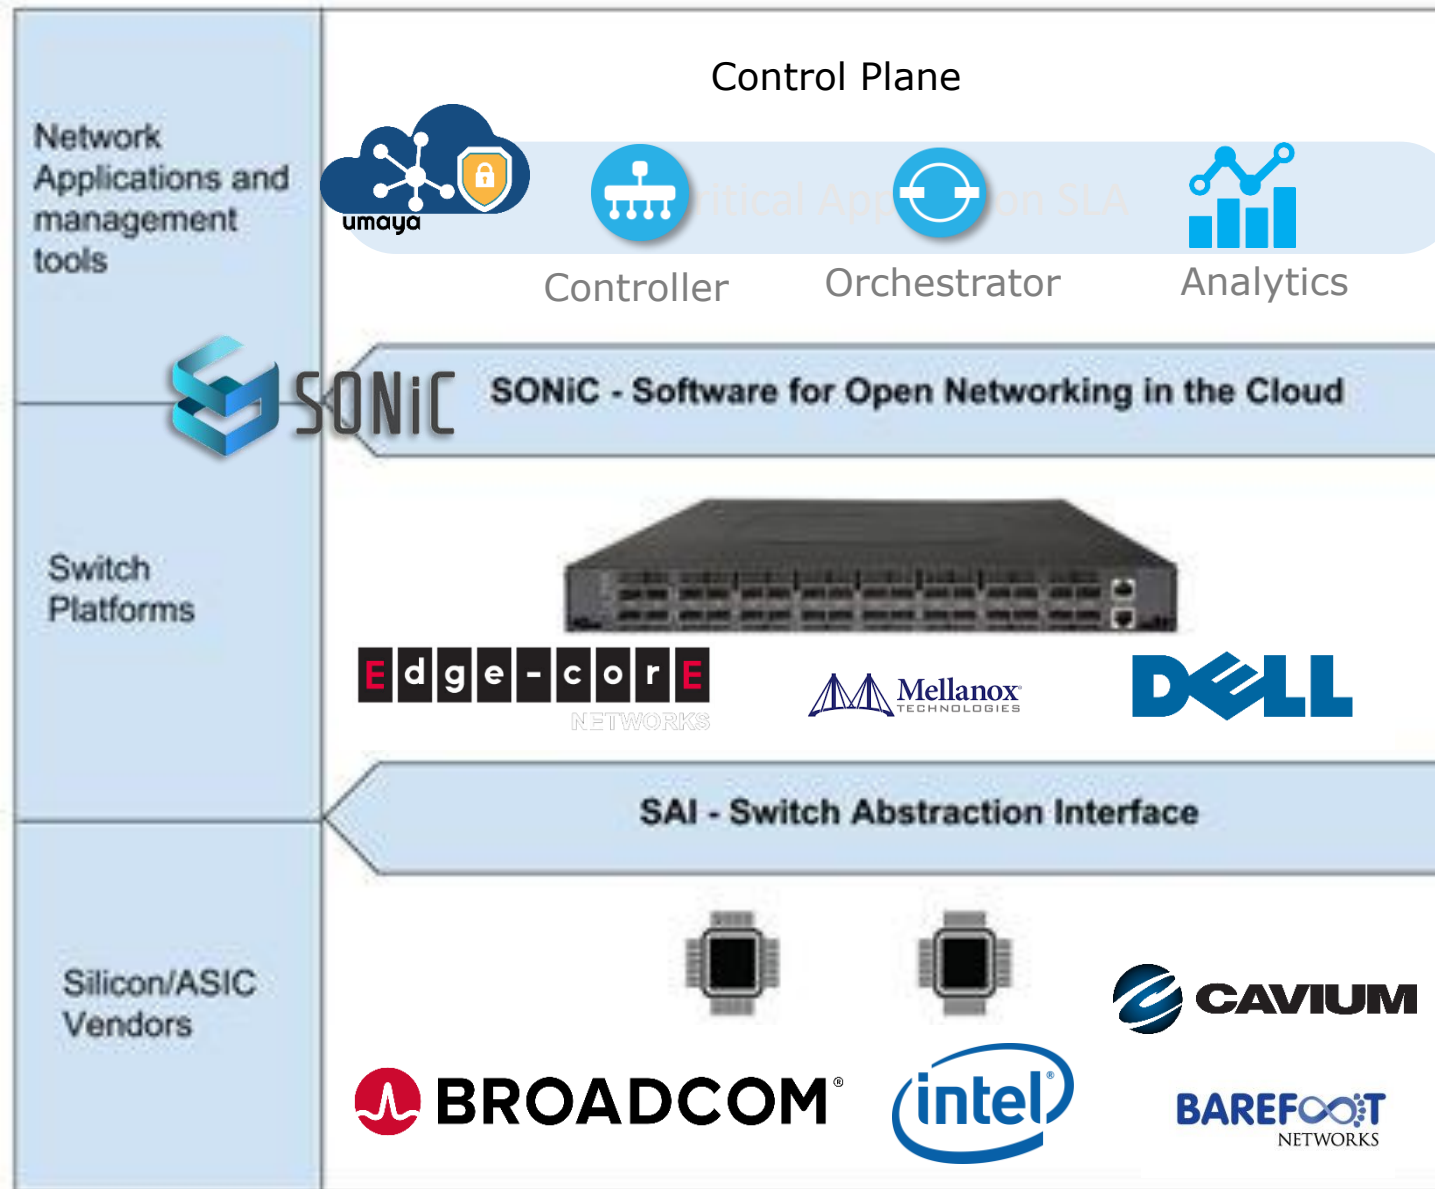

MAYA SD-WAN – Open Source Components

MAYA SD-WAN CPE

MAYA SD-FABRIC

MAYA Fabric – Benefits

- **Cloud Native Integration**
- **API driven. Deeply programmable end-to-end**
- **Simpler Control with SDN-C**
- **Wide Platform Support** (best-of-breed switching hardware)
- **Telco Cloud & 5G Enabled**
- **Lower Total Cost of Ownership (TCO)**

ULAK Open Networking Ecosystem

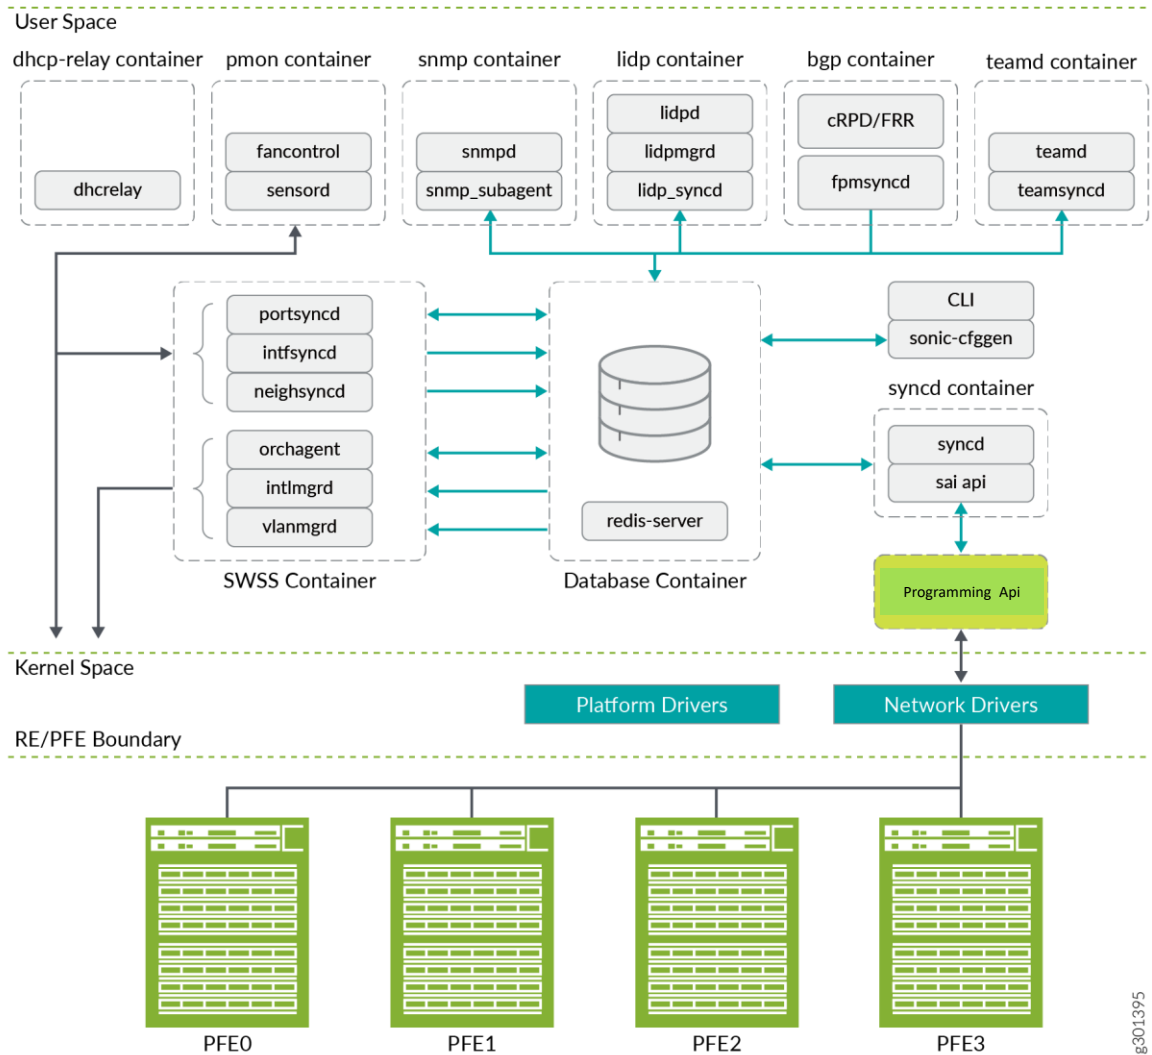

A GLOBAL INITIATIVE

THANK YOU
For Your Attention
